Thanks Meredith.

We will await the release.

Hopefully DPR will not be an impediment to the label amendment process.

Hi Morris - thanks for being responsive. We are planning to release the label changes next week. We have consulted with SFIREG but CA did not call-in. I understand there is to be some discussion today.

Meredith

Good morning Meredith.

Albaugh has submitted its 7 day letter for the use seasons and label timing.

Can you advise when the Agency intends to release the new label changes to registrants?

As you can imagine we are being inundated with questions from our customers on this issue.

In addition, can you advise what discussions the Agency may have had with California DPR on this labeling issue? Releasing new artwork for printing is often delayed awaiting DPR review of a label and can affect the timing of releasing a new label version into the market place.

Regards,

Morris
